
KÄRCHER
INDUSTRIAL MIGHT. 360-DEGREE VISIBILITY.
The original stand-on professional floor scrubber, reinforced for the most demanding environments. karcher.com/us
PROFESSIONAL | CHARIOT™ HEAVY DUTY STAND-ON FLOOR SCRUBBER

WAREHOUSES ARE UNFORGIVING. YOUR EQUIPMENT SHOULDN'T BE.

Industrial floors are high-impact environments. Between tight racking and heavy forklift traffic, your equipment needs to be able to take a hit and keep moving. We've reinforced the Chariot™ Heavy Duty Scrubber at its most vulnerable points, ensuring that accidental contact doesn't result in expensive downtime.

6 REASONS TO CHOOSE CHARIOT™ HEAVY DUTY

- **Clean more in less time:** Cover 27,639 sq. ft./hr. with a stand-on platform that outpaces walk-behind scrubbing and eliminates operator fatigue.
- **Built to last:** Armored with a 7-gauge steel bumper to survive the daily impacts of high-volume industrial and warehouse environments.
- **Streamline your workflow:** The integrated pre-sweep function captures debris while scrubbing, combining two labor-intensive tasks into one efficient, single pass.
- **Enhanced situational awareness:** Safety lighting and an upright operator position provide a 360-degree line of sight to ensure you see and are seen in busy aisles.
- **Minimize your downtime:** Yellow-coded touch-points and tool-free brush replacement allow for rapid daily checks to keep your machine out of the service bay.
- **Navigate tight spaces:** Superior turning radius and compact footprint allow you to maneuver through narrow racking that larger ride-ons cannot reach.

PROVEN PLATFORM, REINFORCED.

Fortifying our signature stand-on chassis with heavy-duty structural upgrades.

Easy Dial Control

- Controls all primary scrubbing functions from a single dial
- Simplifies machine operation and minimizes training time
- Ensures consistent cleaning results

Maneuverable Footprint

- Zero-turn capability for handling in confined spaces
- Compact width allows passage through standard 36-inch doorways

Stand-on platform

- Reduces operator fatigue during long industrial shifts
- Provides unobstructed 360-degree situational awareness
- Responsive acceleration pedal with an integrated safety switch

CHARIOT™ PLATFORM

The proven Chariot platform combines stand-on efficiency with compact maneuverability, delivering total visibility and intuitive control in industrial environments.

Industrial Productivity

- 25-inch working width combined with a 3.0 mph maximum working speed
- Practical area coverage of up to 27,639 sq ft/hour
- Large 27/25-gallon tank capacities paired with up to 4.0 hours of runtime
- Structurally fortified frame built to withstand harsh industrial conditions

Safety Lighting Suite

- Blue front warning light to increase machine visibility to pedestrians and operators in busy areas and blind corners
- Front working light to illuminate the cleaning path and improve situational awareness

Heavy-Duty Bumper

- 7-gauge steel plate ram protection to absorb severe impacts
- Protection for critical components against racking and pallet strikes
- Front stabilizer supports for tilt protection on slopes up to 10% grade
- Integrated front corner rollers for wall and asset protection

Roller Brush Head

- Pre-sweeping and scrubbing in one step
- Minimizes manual pre-cleaning and follow-up work
- Excellent cleaning performance on heavily contaminated, textured floors

HEAVY-DUTY ENGINEERING

Defend your machine against daily facility hazards. Reinforced construction shields critical areas, giving you an unshakable platform and top performance through every shift.

For technical data and product specifications continue to page 7.

HEAVY-DUTY STAND-ON SCRUBBING.

Combining high-productivity stand-on maneuverability with rugged chassis design to deliver reliable, efficient single-pass cleaning performance across high-volume industrial facilities.

The Chariot™ Heavy Duty is a premium stand-on floor scrubber engineered for high-traffic industrial environments. It combines high-productivity cleaning with heavy-duty structural durability.

An armored 7-gauge steel front bumper and a fortified chassis absorb severe impacts from pallets and racking, protecting critical internal components.

To optimize workflow, the 25-inch R 65 die-cast aluminum head integrates pre-sweeping and scrubbing into a single step.

This completely eliminates manual pre-cleaning on heavily soiled or textured floors. Equipped with large 27/25-gallon tanks and a 4.0-hour battery runtime, the machine delivers expansive area coverage while maintaining agile zero-turn maneuverability in confined aisles.

Technical data		Chariot Heavy Duty
Working width	inches	25
Fresh/dirty water volumes	gallons	27 / 25
Brush type		Roller brush
Battery type		AGM
Battery	V/Ah	12/234
Battery runtime	hours	4
Operating noise level	dBA	66
Maximum working speed	mph	3
Maximum transport speed	mph	4.1
Maximum slope	% grade	10
Practical area performance	sq ft/hour	27,639
Length × width × height	inches	57 x 34 x 52
Weight with batteries	lbs	1,291

Equipment

Order No.	Description
1.192-001.0	Chariot Heavy Duty Floor Scrubber

Accessories

	Order No.	Description
■	2.763-046.0	Brush head, R 65
■	4.035-604.0	Roller brush, medium, red
■	4.777-100.0	Suction bar, curved, 850 mm - B95RS
■	6.273-207.0	Squeegee blade set, oil-resistant
□	8.600-015.0	AGM battery charger, 36V, 21A, 115V
□	8.600-486.0	Keys, set of 2
□	6.907-777.0	Roller brush, soft, white
□	6.907-727.0	Roller brush, hard, green
□	6.907-728.0	Roller brush, very hard, black
□	6.907-726.0	Roller brush, high/low, orange
□	4.037-166.0	Squeegee blades, lateral
□	6.273-229.0	Squeegee blade set, anti-stripe, oil-resistant
□	6.273-213.0	Squeegee blade set, standard

■ Included □ Optional
