THE K-MOP

Own the floor. **karcher.com**

PROFESSIONAL | FLOOR SCRUBBERS

TAKE THE LEAD

Professional cleaning often poses major challenges for machines and users. The requirements when it comes to ergonomics and durability are exceptionally high, especially when it comes to scrubbing and vacuuming. The K-Mop sets new standards here – extremely robust yet easy to handle and use instinctively. The best of all worlds.

It enables effortless, professional use and is therefore the perfect choice for almost any premise. Whether it's heavily furnished areas, washrooms or slightly larger areas: with its maneuverability and generous working width, the K-Mop is the perfect machine for professionals. **Regain control of your cleaning efforts instead of letting them get the better of you.**

5 GOOD REASONS FOR THE K-MOP

- **Easy handling:** the intuitive operation reduces training requirements to a minimum – for easy use by all users.
- **Sustainability:** with a recycled content of 28 percent, eco!Mode and low consumption values, the K-Mop conserves valuable resources and protects the environment.
- **Ergonomics:** developed in collaboration with ergonomics experts, the K-Mop is one of the most ergonomic machines in its class. Back-friendly, energy-saving and well thought-out down to the last detail.
- **Part of the Kärcher system:** the K-Mop integrates seamlessly into the Kärcher system thanks to the Battery Power+ platform, compatibility with Kärcher Equipment Management and docking options with ride-on machines.
- **Patented technology:** Seven patents highlight the innovative strength of the K-Mop.

OUTSTANDING ON ANY SURFACE

eco!Mode

LC display with status and battery indicator

Water volume adjustment

LED light ring as status display

User-friendly and intuitive user interface

Height-adjustable handle enables ergonomic work

Fresh water tank with 1 gallon volume

Dirty water tank with 1 gallon volume

Liftable squeegee with powerful suction for two-stage work

2 counter-rotating and powerful disc brushes

Whether in washrooms, kitchens, offices, foyers or other hard floor areas, the K-Mop impresses with its easy handling, well-thought-out ergonomics and intuitive operation. This gives it the versatility required for almost any application.

NEVER MISS A BEAT

Whether narrow niches or expansive areas:
the K-Mop impresses with its clever design,
easy handling and high degree of freedom during use.

Thanks to its maneuverability and flat design, the K-Mop effortlessly cleans even confined areas such as sanitary facilities or surfaces under partition walls. At the same time, the generous working width of 18 inches ensures efficient cleaning of larger areas such as foyers or corridors.

Weighing only 54 pounds, the machine is easy to transport. Large transport rolls also enable safe use across several steps.

The K-Mop is also perfect for noise-sensitive environments: the low operating noise level allows it to be used in hotels, offices or care facilities without disturbing operations.

The flexible battery platform guarantees maximum autonomy. While one battery is in use, the second can be charged to 80 per cent in parallel – for uninterrupted work and maximum efficiency.

Technical data		K-Mop
Disc/roller/orbital brush head		Disc brush head
Theoretical area performance	ft²/h	19,805
Practical area performance	ft²/h	12,916
Brush speed	rpm	350
Brush pressure	lbs	42
Working width	in	18
Length × width × height	in	17 x 21.7 x 45.6
Weight (without water, incl. battery)	lbs	58.2
Fresh / dirty water tank volume	gal	1 / 1
Sound level	dB	67
Run time	min	60
Charging time	min	80
Battery type	V / Ah	36 / 7.5 Li-ion battery (1 battery)

Equipment

Order No.	Description
1.783-481.0	K Mop

Accessories

	Order No.	Description
■	2.445-075.0	Battery Power+ 36/75 *CUL
■	2.445-053.0	Charger, Battery Power+ 36/60 *CUL
■	4.600-072.0	Disc brush red, 9" (2x)
■	4.070-006.0	Cleaning agent container, complete
■	4.600-067.0	Squeegee blade Linatex
□	4.600-073.0	Disc brush white, 9" (2x)
□	4.600-074.0	Pad drive board, 9" (1x)
