

A woman with dark hair, wearing a green short-sleeved shirt, is shown from the chest up. She is looking slightly off-camera with a gentle smile. Her right arm is extended, holding a blue microfiber cloth against a dark, reflective surface. The background is a soft, out-of-focus teal color.

KÄRCHER

A SOLUTION FOR EVERY TASK

Achieve more together. [karcher.com](https://www.karcher.com)

PROFESSIONAL | CLEANING SERVICE PROVIDERS

ALL FROM A SINGLE SOURCE

Kärcher is the global leader in providing comprehensive cleaning solutions. We offer straight forward and transparent financing options, along with personalized advice and services to cater to your specific requirements. Our goal is to help you achieve the best cleaning results by using cutting-edge products, specially formulated cleaning agents, and a wide selection of accessories.

THE BEST IN THEIR CLASS

BVL battery-powered backpack vacuum

No concessions or limits, just power: reach all areas with the ultra-light, powerful, battery-powered BVL 5/1 Bp backpack vacuum – even when cleaning in the narrowest of spaces. All without having to wind up or unwind the power cable, drag it behind you, snagging or endless replugging.

B 50 scrubber

The B 50 W Bp compact scrubber is ideal for efficient floor cleaning and boasts a particularly durable design. The brush head and squeegee are made from long-lasting cast aluminum – for excellent suction even on textured surfaces and in tight corners.

Armada® carpet extractor

It has never been easier and more enjoyable to clean your carpets! The Armada® BRC 45/38 W is a powerful, self-propelled walk forward extraction solution. The height-adjustable handle, articulating head, traction drive motor and the easy maneuverability help reduce repetitive movements experienced by your employees and make work more efficient.

Our innovative cleaning solutions are easy-to-use with minimal training, allowing you to work through turnover with less hassle. Your team will complete tasks more quickly, efficiently and effortlessly. Plus, Kärcher service provides ongoing support when you need it.

CVS carpet sweeper

Cleaning with a vacuum cleaner can be hard work and take time. We can help. The battery-powered CVS 65/1 carpet sweeper gives you high cleaning performance and is easy to operate. It can help you clean long corridors and large carpeted areas quietly and without interruptions.

Sensor® S2 HEPA vacuum

The Sensor® S2 HEPA vacuum excels in cleaning performance and reliability. With standard HEPA filtration, it ensures optimal indoor air quality. Lightweight and quiet, it's perfect for noise-sensitive environments. Experience unparalleled cleaning power and dependability

KIRA autonomous scrubber

The perfect addition to any cleaning team: the KIRA B 50 cleaning robot with intuitive operation and powerful sensors offers complete autonomy for high productivity and outstanding safety. Free up your staff to focus on higher value tasks with autonomous cleaning.

FIRST IMPRESSIONS COUNT

Strong outdoor performance: Kärcher offers flexible, convenient and efficient solutions for demanding cleaning tasks in outside areas.

Keeping dirt outdoors where it belongs can be a challenge, but as with most things, having the right tools make the job much easier. From

pressure washers to sweepers and accessories for each, you'll cut your cleaning time and make a lasting impression.

Dirt prevention

The cleaner an outside area is, the less dirt will be carried inside. This means that the entrance area is cleaner by default and the effort required for cleaning is reduced, thus saving you money.

Top performance

Kärcher products are equally impressive in outside areas, whatever the weather conditions or surfaces and how stubborn the dirt may be. Our outdoor machines boast ergonomic,

easy operation, maximum flexibility and strong performance. We give you innovative sweepers, battery powered products such as gum removers, surface cleaners and pressure washers.

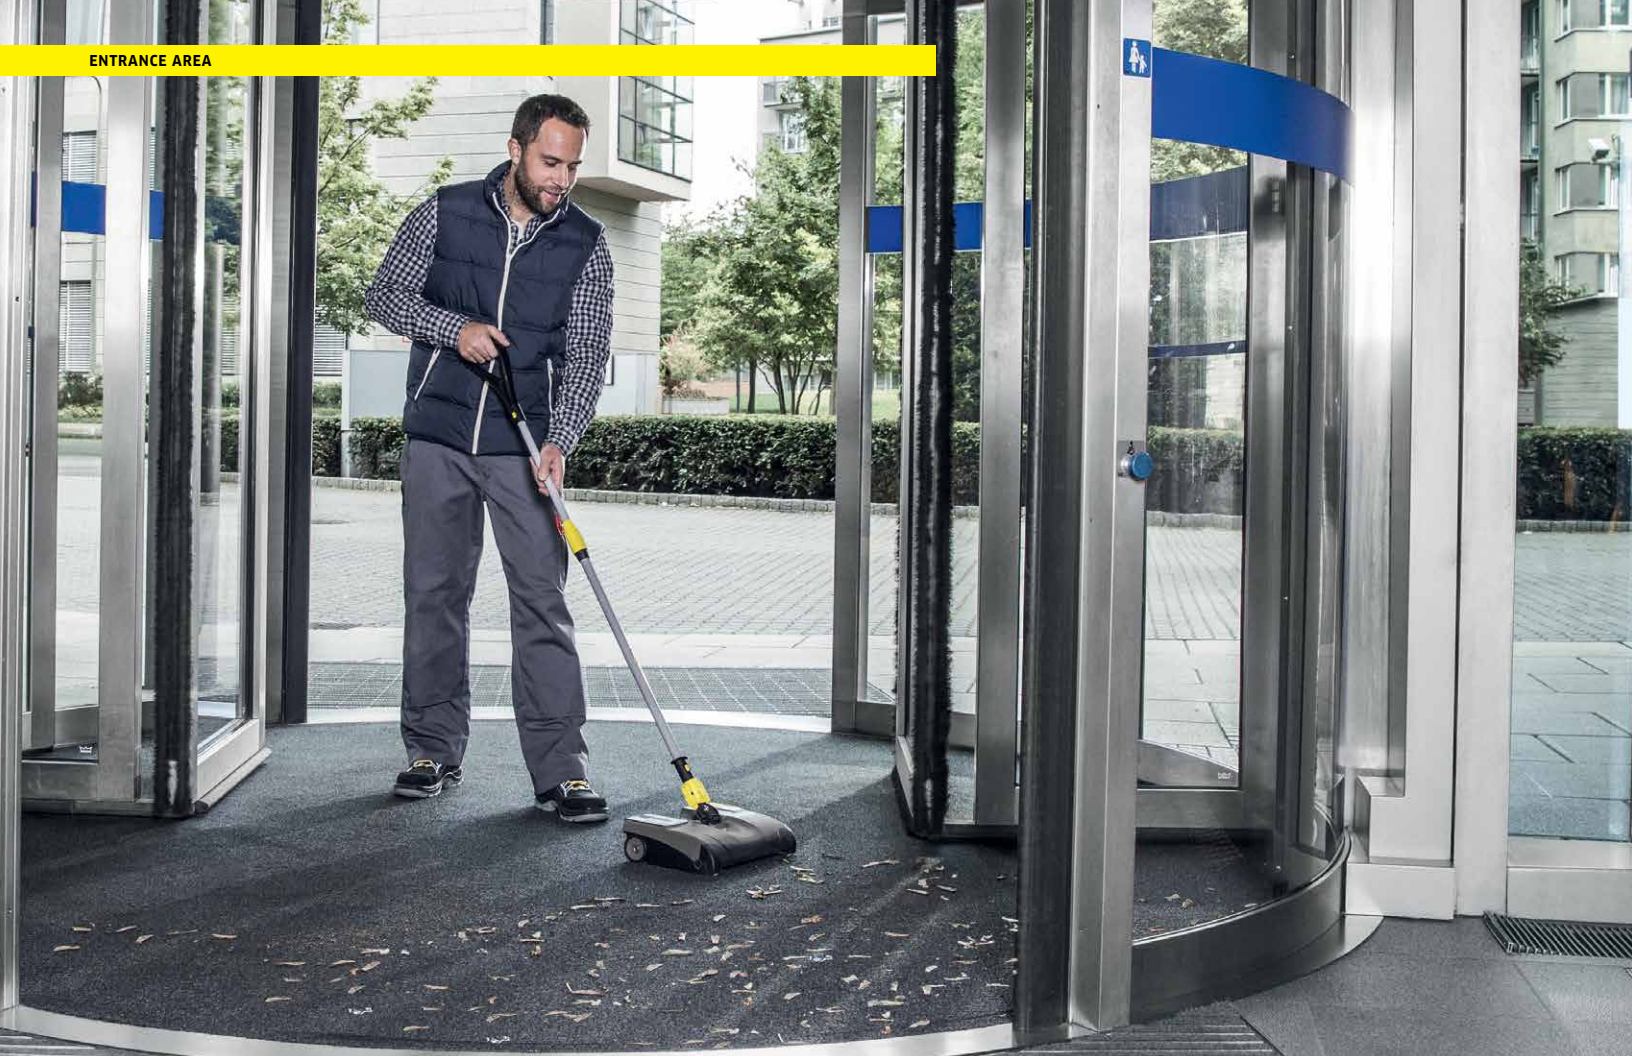

Prefer to rent instead of buy? No problem

From spring cleaning to winter service: Kärcher equipment rental application-optimized solutions for greater cleanliness. An additional advantage is that Kärcher Services allow you to rent machines each season.

Jarvis Series Surface Cleaner

A complete solution for quick, streak free cleaning of entrances and sidewalks, this pressure washer surface cleaner combo is the perfect solution for quick, outdoor cleaning.

GUESTS WELCOME, DIRT NOT SO MUCH.

A clean entrance area benefits image as well as the health of employees and visitors.

A lobby says a lot about your business – this is where all clients, business partners, employees, visitors and job candidates enter and exit

the building. This makes the entrance area one of the busiest places, and it is also where people bring in dirt on their shoes.

The right machine for every surface

Our battery-powered machines are fast, flexible and easy to use. Their compact and ergonomic design makes it easy to clean stairways and floor areas. Whether cleaning carpets or hard floors, our products allow for cleaning close to the edges and agile cleaning even in areas filled with objects and furniture as well as nooks and crannies that are difficult to reach.

Cleaning contact surfaces

These touch points should be cleaned often with disinfectant to prevent the spread of germs and bacteria. We are your one-stop solution for cleaning equipment and disinfectants.

BR 52-11 Escalator Cleaner

Experience unparalleled flexibility, productivity and safety with our cordless upright vacuum for fast in and out cleaning.

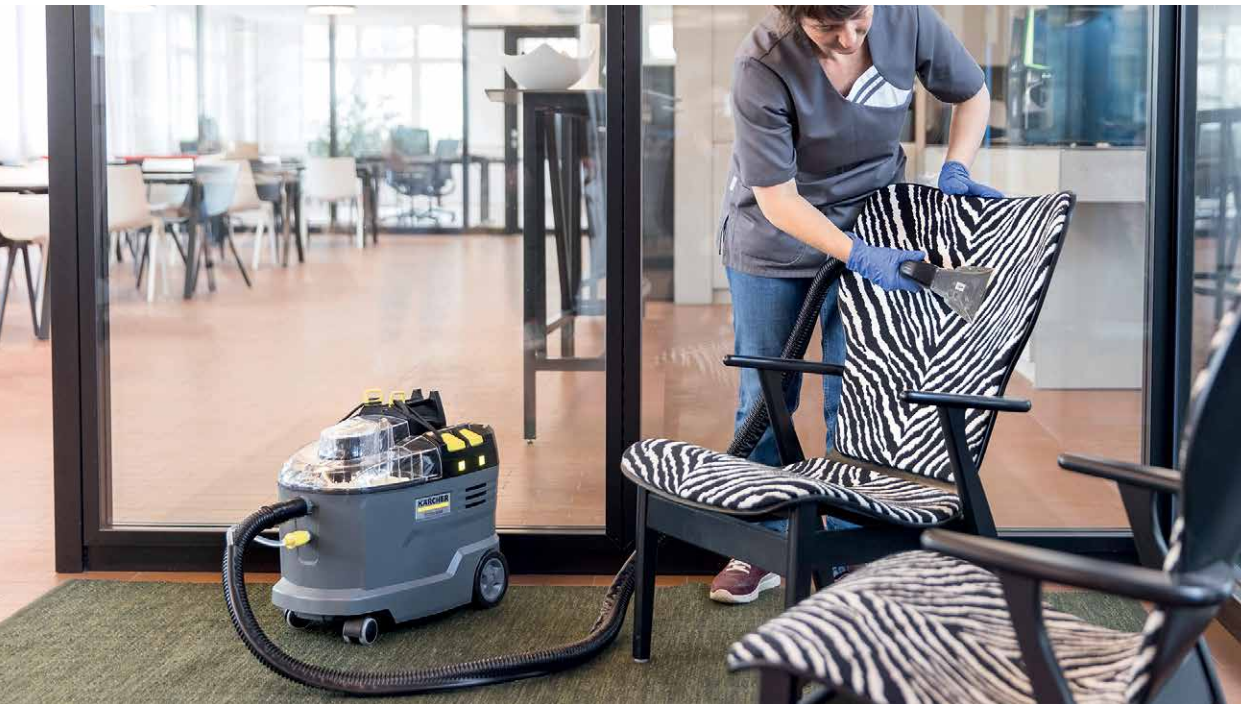

A CLEAN SWEEP

Office areas are as versatile and unique as the workstation of each and every employee – and therefore have the cleaning requirements to match.

Cleaning around workstations requires flexibility and mobility of the carpet sweepers and vacuums being used. We offer both corded and bat-

tery powered vacuums for carpeted areas and a variety of compact scrubbers for hard floors.

Quick and flexible

Clean offices and conference rooms make office workers happy, while quick and ergonomic cleaning makes cleaning staff happy. Our machines clean all surfaces in no time at all.

Clean areas filled with objects quickly using a vacuum cleaner and remove stubborn dust in carpets at the same time. Clean and disinfect contact surfaces using appropriate cleaning agents and disinfectant.

Admiral XL Extractor

Superior cleaning for open carpeted areas, this operator-friendly extractor is equipped with SmartSpeed to ensure efficient cleaning every time.

A man in a light blue polo shirt and brown trousers is operating a black and yellow Kärcher floor cleaning machine in a canteen. The machine is a walk-behind unit with a large black tank and a yellow handle. The man is walking forward, pushing the machine. The background shows a canteen with a counter, shelves, and a glass display case. The floor is made of light-colored square tiles.

SERVING FRESHNESS AND CLEANLINES

Ensuring cleanliness in kitchens and cafeterias is of the utmost importance. That's why Kärcher provides everything you need to efficiently and professionally clean while adhering to strict hygiene regulations.

The cafeteria holds a special place for many employees, serving as a beloved sanctuary. It's where colleagues gather for lunch, take a well-deserved coffee break, have a quick catch-up, and

enjoy a short respite from work. Particularly during lunchtime, the cafeteria becomes bustling with activity, resulting in frequent table turnovers and occupants. Therefore, it's crucial that these areas are cleaned promptly and regularly.

Kitchens and cafeterias

Whether you are preparing food or consuming it, hygiene is of paramount importance in all food-related areas. At Kärcher

we trust in targeted steam cleaning in kitchens without using chemicals. Scrubbers help combat food residues and crumbs in cafeterias.

BD 30/4 C Bp Scrubber

It fits anywhere you need to clean—in and around furniture, in narrow hallways and more.

CONTROLLING THE SPREAD OF GERMS

Extensive cleaning and disinfecting can be so simple – even in public restrooms.

Cleaning public restrooms is crucial for maintaining public health and safety, as they are high-traffic areas where germs and bacteria can easily spread. Additionally, clean and

well-maintained restrooms contribute to a positive experience for visitors, enhancing the reputation and overall satisfaction of the establishment.

Full steam ahead to tackle dirt

Highly effective steam cleaners offer everything you could possibly want in terms of hygiene. The steam emerges in very fine drops and, depending on the machine type, at a temperature of around 100°C and a pressure of up to 8 bar. You can clean walls, floors and furniture effectively, and the steam also reaches areas that are difficult to access such as rubber folds or crevices.

Sustainably clean

Particular care must be taken in sanitary facilities as it is likely that the various materials will have different reactions to the cleaning agent. This is why only basic/alkaline cleaning agents are used, allowing for gentle, eco-friendly and effective cleaning.

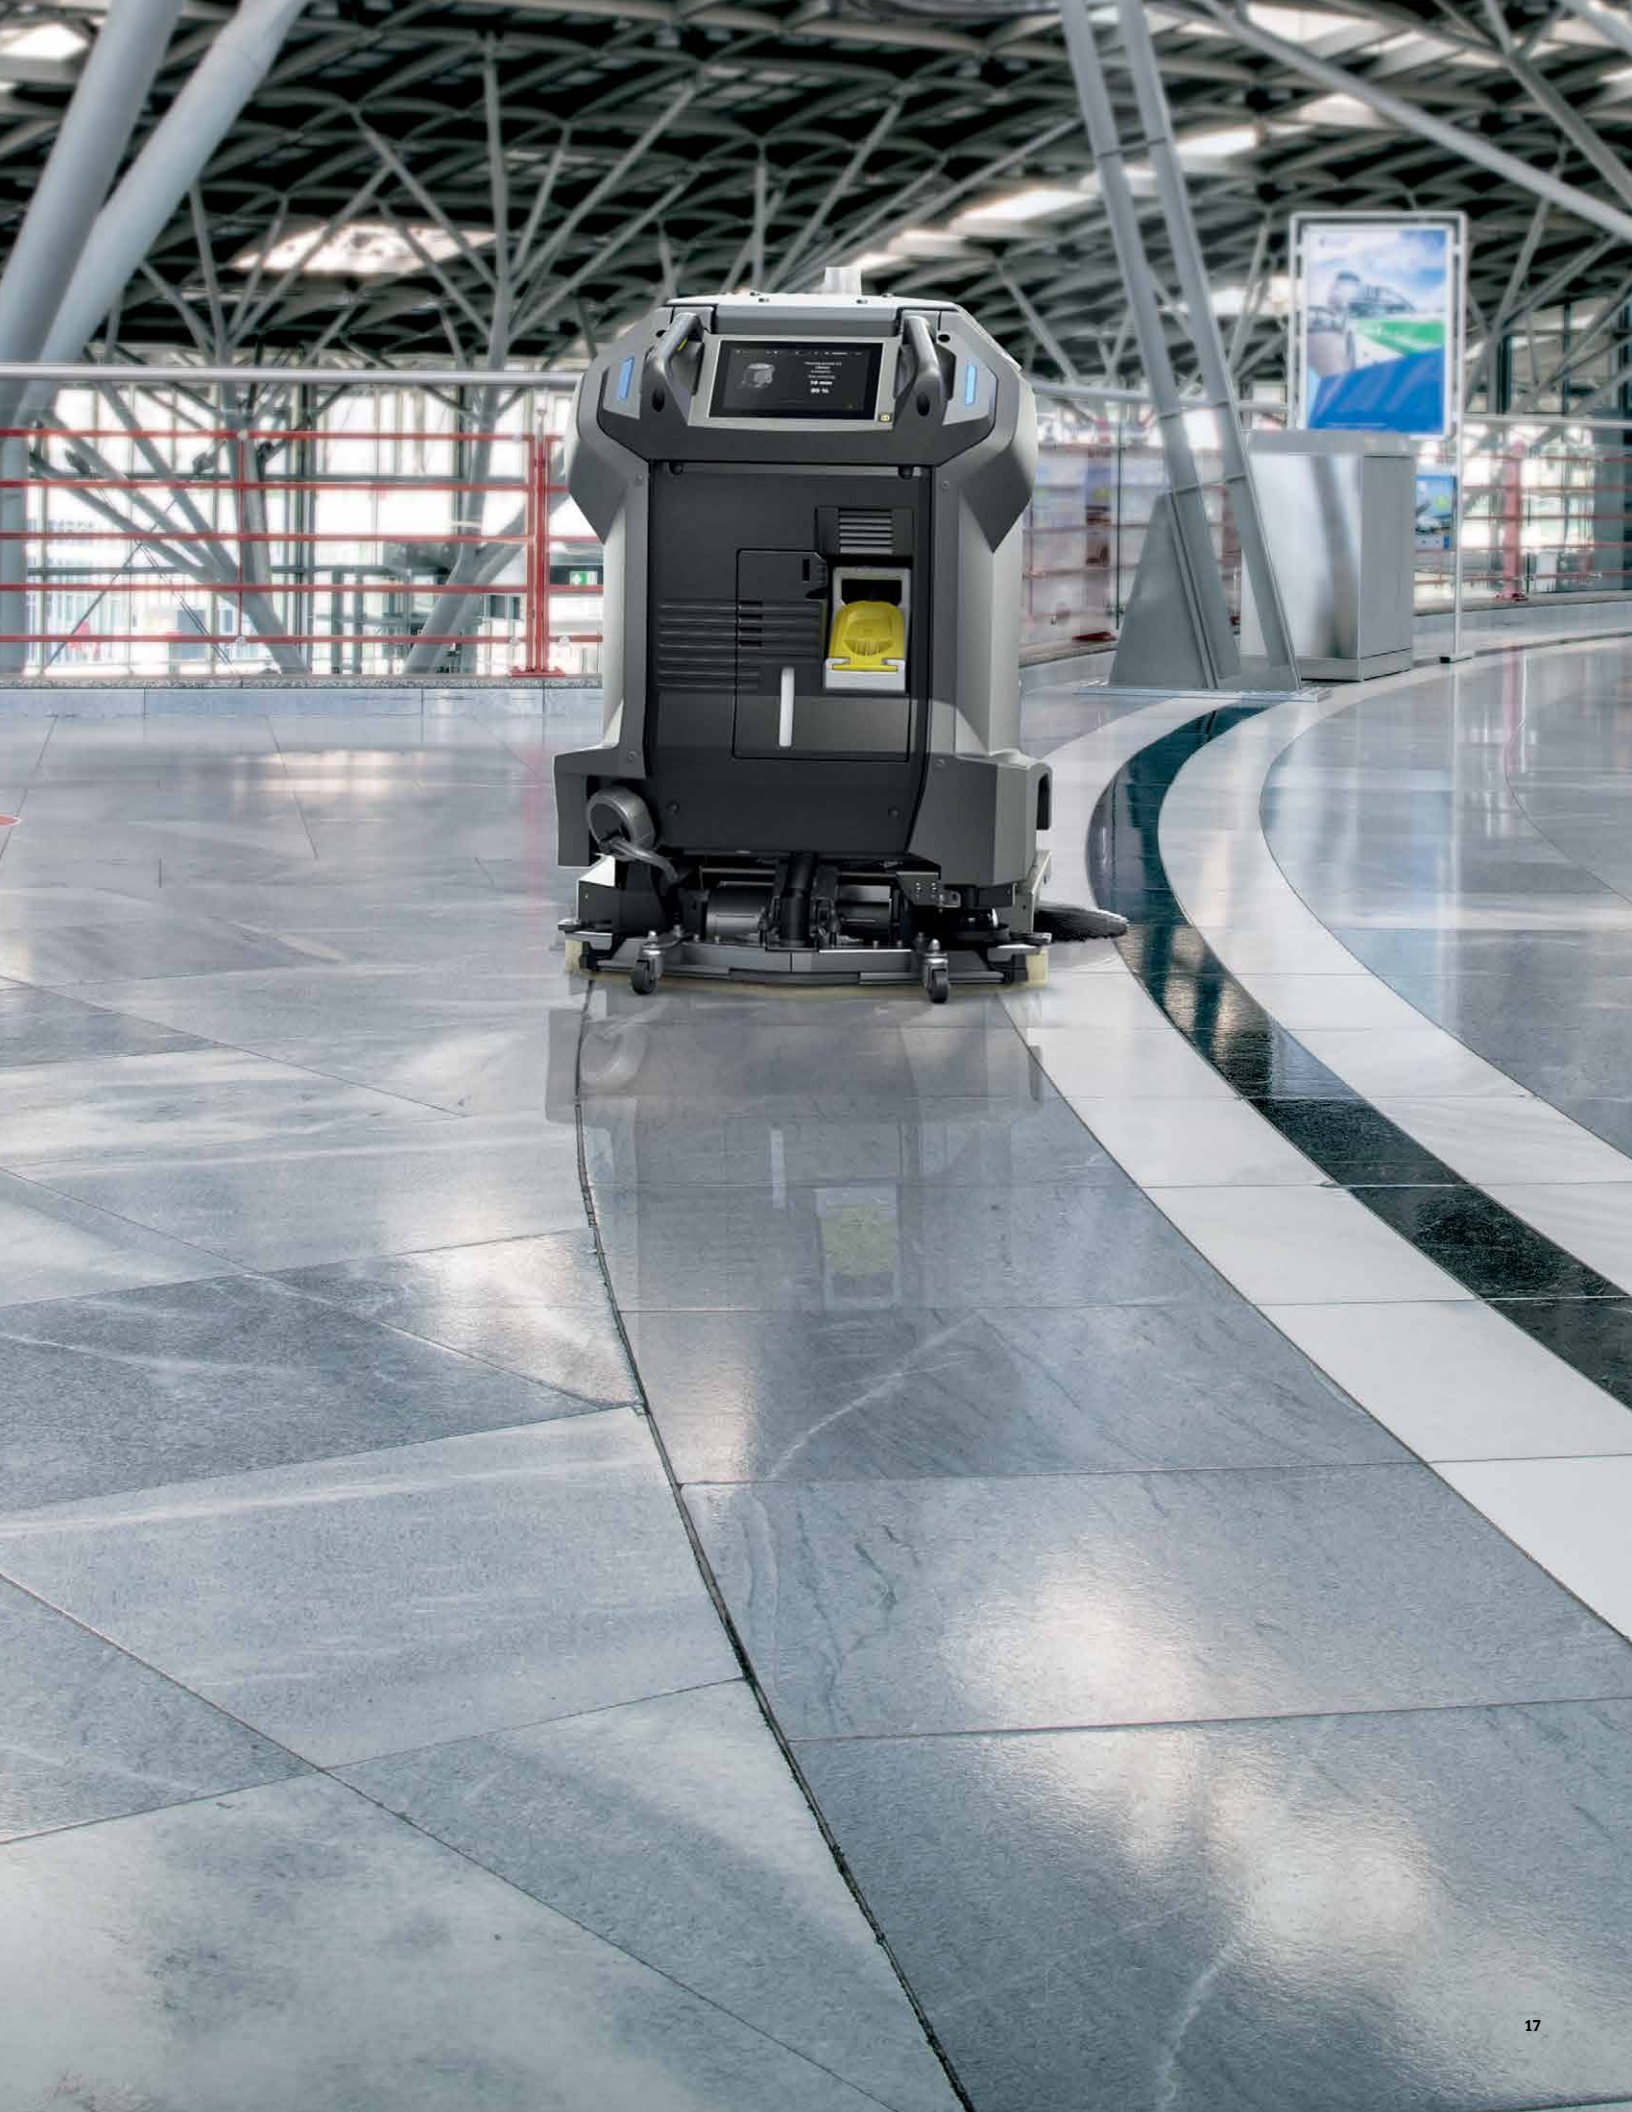

AP 100/50 M Multi-surface cleaning machine

Easily clean inside washrooms with this touchless compact cleaning machine, which dries surfaces in just one-third the time compared to traditional methods.

AUTONOMOUS CLEANING

Reliable sensor technology, connectivity and transparency meet complete cleaning performance – this is the smart KIRA B 50 cleaning robot. Start a (clean) new chapter with the professional scrubber robot: easy to set up and operate, it offers complete autonomy and facilitates safe, thorough and economical cleaning of all surfaces.

WHAT IF THE FUTURE OF CLEANING CHANGES TOMORROW?

No matter how radically your business changes, we can help you to keep up with the challenges ahead. Just reach out to us to reach for the stars. **Nothing can stop you with Kärcher Services.**
