

KÄRCHER

PARTNERING FOR CLEANER, SAFER HEALTHCARE.

There's Kärcher for that.

HEALTHCARE | HOSPITAL CLEANING SOLUTIONS

Patients Reception

ALL FROM A SINGLE SOURCE.

Maintaining hygiene and increasing patient satisfaction while keeping costs low can be difficult. Kärcher has the solution to help you work productively and effectively while reducing HAIs and increasing your HCAHPS scores.

With innovative products, resourceful technologies, and complete system solutions, Kärcher provides increased efficiencies for your facility. We are the global leader when it comes to providing comprehensive cleaning solutions. No matter what your challenge is, there's Kärcher for that.

THE BEST IN THEIR CLASS.

BVL battery-powered backpack vacuum

No concessions or limits, just power: reach all areas with the ultra-light, powerful, battery-powered BVL 5/1 Bp backpack vacuum – even when cleaning in the narrowest of spaces. All without having to wind up or unwind the power cable, drag it behind you, snagging or endless replugging.

B 50 scrubber

The B 50 W Bp compact scrubber is ideal for efficient floor cleaning and boasts a particularly durable design. The brush head and squeegee are made from long-lasting cast aluminum – for excellent suction even on textured surfaces and in tight corners.

Armada® carpet extractor

It has never been easier and more enjoyable to clean your carpets! The Armada® BRC 45/38 W is a powerful, self-propelled walk forward extraction solution. The height-adjustable handle, articulating head, traction drive motor and the easy maneuverability help reduce repetitive movements experienced by your employees and make work more efficient.

Our innovative cleaning solutions are easy-to-use with minimal training, allowing you to work through turnover with less hassle. Your team will complete tasks more quickly, efficiently and effortlessly. Plus, Kärcher service provides ongoing support when you need it.

BDP 51/2000 C Burnisher

Your floors will shine as bright as lightening! The floating handle automatically adjusts to operator height simplifying operation and providing a consistent high-gloss shine. Mechanical safety interlock to prevent accidental start-ups. The rugged housing with no-mark bumper protects the unit and your facility.

Sensor® S2 HEPA vacuum

The Sensor® S2 HEPA vacuum excels in cleaning performance and reliability. With standard HEPA filtration, it ensures optimal indoor air quality. Lightweight and quiet, it's perfect for noise-sensitive environments. Experience unparalleled cleaning power and dependability.

KIRA autonomous scrubber

The perfect addition to any cleaning team: the KIRA B 50 cleaning robot with intuitive operation and powerful sensors offers complete autonomy for high productivity and outstanding safety. Free up your staff to focus on higher value tasks with autonomous cleaning.

PATIENTS WELCOME, DIRT NOT SO MUCH.

Efficient cleaning in the lobby and waiting areas allows facilities to provide an inviting environment for patients and incorporates the best practices of health and safety.

The constant traffic in public areas such as entrances, corridors and waiting rooms leave little time for cleaning especially given the urgent nature of the healthcare industry. Important is the balance between routine maintenance, interim and deep cleaning, while

considering patient comfort. Kärcher helps you put hygiene and dirt control first. Our line of professional floor cleaning equipment includes sweepers, upright vacuums, scrubbers and carpet cleaners, many which operate quietly.

A scrubber for every area.

No matter if you need to clean a large corridor, lobby or restroom, we have a floor scrubber to fit. Our products range from compact options to ride-on models for cleaning larger spaces. We also offer robotic scrubbers which free up staff for higher value tasks.

Carpet cleaning

Our Sensor battery powered upright vacuum allows staff to work efficiently without disturbing visitors. For deep cleaning carpet, our line of extractors allow for low residual moisture, meaning carpet is back in business when you are.

KM 70/20 Push Sweeper

Keep dirt outdoors with this easy-to-use push sweeper, ideal for entry ways, halls and sidewalks.

CONTROLLING THE SPREAD OF GERMS.

Patients want to see the efforts of your cleaning, while not being disturbed. Kärcher helps you keep a highly clean environment.

The health and wellness of patients is your utmost concern and by keeping a clean environment, you prevent the spread of disease and

infections. Kärcher equipment lends a helping hand, making cleaning patient rooms, operating rooms, and restrooms much more efficient.

Quick and flexible

Maintaining pristine cleanliness in hospital rooms and restrooms is paramount to patient health and well-being. Kärcher's easy-to-use cleaning equipment empowers healthcare facilities to achieve a higher standard of hygiene, effectively combating the spread of infections and

fostering a healing environment. By simplifying the cleaning process, Kärcher enables hospitals to dedicate more time to patient care, ensuring a safe and comfortable experience for everyone.

AP 100/50 M Multi-surface cleaning machine

Easily clean bathrooms with this touchless compact cleaning machine, which dries surfaces in just one-third the time compared to traditional methods.

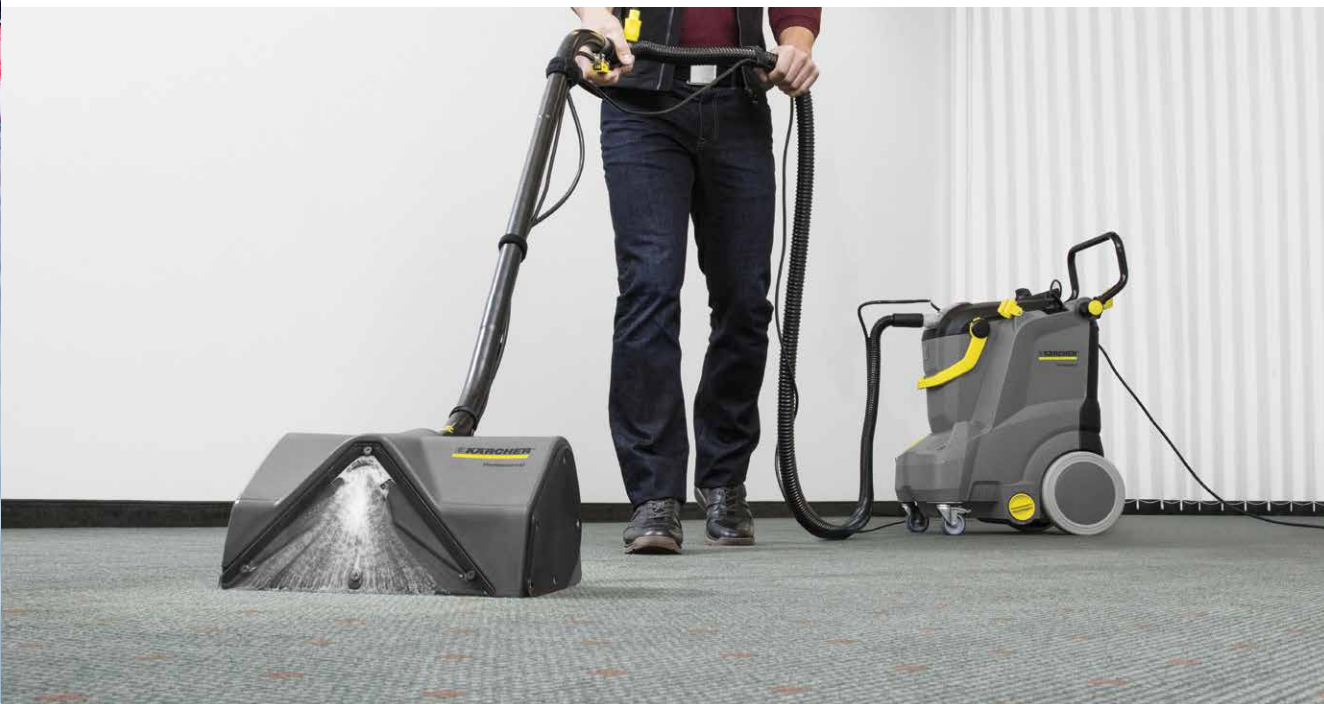

CLEANING FROM THE GROUND UP.

No matter the flooring type, cleanliness is a priority with a combination of Kärcher's scrubbers & vacuums.

Hospital floors can harbor harmful bacteria and pathogens that contribute to the spread of infection among patients, visitors and staff. Plus, slip and falls are a major concern in hos-

pitals. Furthermore, a clean and well-maintained floor reflects positively on the hospital's image. Turn to Kärcher for a variety of floor cleaning solutions to keep your image shining.

Deep cleaning extraction

Hospitals experience heavy foot traffic and are prone to spills and stains. Aside from harboring bacteria, carpets can trap dust, allergens and pollutants which affect air quality. Using hot water and cleaning solution to penetrate deep into carpet fibers, a carpet extractor removes embedded dirt which vacuuming can't reach.

Clean more square footage, faster

Kärcher scrubbers help maintain hygiene by effectively removing contaminants and preventing cross-contamination. Our design separates clean and dirty water tanks, ensuring that only clean solution is used. Plus, they provide scrubbing, solution application and dirty water extraction in a single pass, increasing cleaning efficiency compared to manual mopping.

BD 50/70 Ride-on scrubber

Ideal for tight, congested areas, this is our most compact ride-on scrubber, offering maneuverability and productivity in one package.

SERVING FRESHNESS AND CLEANLINES

Ensuring cleanliness in kitchens and cafeterias is of the utmost importance. That's why Kärcher provides everything you need to efficiently and professionally clean while adhering to strict hygiene regulations.

The cafeteria serves as a sanctuary, serving as the place where staff and visitors can getaway briefly from the stress of the day. Particularly during mealtime, the cafeteria becomes bustling with

activity, resulting in frequent table turnovers and occupants. Therefore, it's crucial that these areas are cleaned promptly and regularly.

Kitchens and cafeterias

Whether you are preparing food or consuming it, hygiene is of paramount importance in all food-related areas. Maintaining a clean hospital cafeteria and kitchen is critical to patient safety and overall well-being. It prevents the spread of foodborne illnesses and infections, especially among patients with weakened

immune systems. A clean environment also promotes a positive atmosphere, boosting staff morale and contributing to the patient's recovery process. Given the scope of surface areas needing to be cleaned, turn to a partner with proven results. No matter what your cleaning is, there's Kärcher for that.

BD 35/15 C Bp Scrubber

This compact and flexible machine is perfect for cleaning in crowded environments or spaces full of tables and chairs.

WHAT IF THE FUTURE OF CLEANING CHANGES TOMORROW?

No matter how radically your business changes, we can help you to keep up with the challenges ahead. Just reach out to us to reach for the stars. **Nothing can stop you with Kärcher Services.**
