

KÄRCHER

SMART CLEANING. SIMPLE SOLUTIONS.

There's Kärcher for that.

INDUSTRY | GENERAL MANUFACTURING

INDUSTRIES WE SUPPORT

Kärcher has been developing solutions for customers across a wide range of industries for decades.

Automotive industry

- Production of commercial and motor vehicles and parts
- Production of other transport vehicles such as rail-ways, ships, aircraft, military vehicles, etc.

Heavy industry

- Metallurgy and metal forming
- Machining of steel and metal

Coke ovens and refineries

- Processing of coal and refining of raw materials

Mechanical industry

- Machine design
- Tool manufacture

Chemical sector

- Chemical industry
- Pharmaceutical industry
- Production of rubber and plastic products
- Processing of glass and stone

Textile industry

- Production of yarn, fibers and textiles

Electronic and optoelectronic industry

- Production of microchips

Paper and wood industry

- Wood processing
- Production of paper
- Production of print media

Food industry

- Processing of meat, fish, vegetables and fruit
- Production of ready meals and pet food
- Beverage industry
- Brewing and Baking

Other industries

- Furniture manufacture
- Production of tobacco

WHEN CLEANING GUARANTEES SMOOTH PROCESSES.

**IVM 60/24-2 HEP
Industrial Vacuum**

The perfect all-around solution for a variety of manufacturing cleaning needs, from general facility maintenance to specialized tasks requiring HEPA filtration. This powerful and versatile vacuum delivers high performance and reliable operation in demanding industrial environments.

**B 50 W Bp R55 Floor Scrubber**

The B 50 W Bp walk-behind scrubber with the R55 cylindrical brush head is a powerful and efficient solution for manufacturing facilities, ideal for thorough cleaning of various surfaces, including textured floors commonly found in production areas. Its 22-inch cleaning width and high area coverage rate make it perfect for both routine cleaning and more demanding maintenance tasks.

**KM 100/120 R Bp Sweeper**

Maximize cleaning productivity in your manufacturing facility with this configurable ride-on sweeper. Designed to minimize total cost of ownership, it's ideal for tackling large indoor and outdoor cleaning tasks, from production floors, and warehouses to parking areas and sidewalks.

In manufacturing, cleanliness is critical. Kärcher's industrial cleaning solutions boost productivity and create safe, well-maintained facilities. Our easy-to-use equipment requires minimal training, allowing your team to work quickly and efficiently. Plus, Kärcher service provides ongoing support.

KIRA Autonomous Scrubber

The perfect addition to any cleaning team: the KIRA B 50 cleaning robot with intuitive operation and powerful sensors offers complete autonomy for high productivity and outstanding safety. Free up your staff to focus on higher value tasks with autonomous cleaning.

Mojave Hot Water Pressure Washer

The Mojave series is a perfect all around pressure washer for a variety of applications around a production facility. It's electric powered and diesel heated, making it ideal for cleaning outdoor areas around loading docks and transport vehicles.

B 300 R I Sweeper / Scrubber

Available in diesel, LPG, and battery-powered options, the B 300 R I offers versatility for any manufacturing environment, including zero-emission operation for indoor applications. Achieving up to an outstanding 178,144 ft²/hr cleaning performance, this dual-purpose industrial cleaner scrubs while it sweeps. Saving you substantial time and money, the Kärcher B 300 R I is designed to maximize cleaning efficiency and minimize costs.

WET CLEANING WORKS WONDERS.

In the demanding environment of industrial production, wet cleaning is essential for removing tough grime and maintaining a safe and efficient operation.

Adhesives, greases, paints, gum, incrustations, production residue, and solids can quickly accumulate, creating slip hazards and impacting productivity. Kärcher offers a comprehensive range of wet cleaning solutions designed to tackle these challenges effectively.

Our cold and hot water high-pressure cleaners deliver powerful cleaning performance, ideal for blasting away stubborn buildup on floors, walls, and equipment.

For larger areas, our industrial scrubbers provide efficient and effective cleaning, removing dirt and grime while leaving surfaces dry and ready for use. These machines minimize downtime and ensure a safe working environment. And for the most challenging cleaning tasks, our ultra-high-pressure cleaning systems offer the ultimate in cleaning power.

Enhance your wet cleaning capabilities.

From specialized floor cleaning nozzles and various high-pressure nozzles and trigger guns to surface cleaners designed for specific applications, we have the tools to customize your cleaning approach. Our

team can provide expert consultation and training to help you select the right equipment and accessories for your specific needs, ensuring optimal performance and efficiency.

NT 68/1 Wet/Dry Vacuum with Front-Mounted Squeegee

A versatile wet/dry vacuum with an 18-gallon capacity and a front-mounted squeegee assembly efficiently tackles a variety of cleaning tasks.

A woman wearing a white long-sleeved shirt, blue denim overalls, and a grey hairnet is using a black flexible vacuum hose with a black nozzle to clean a white industrial machine. The machine has a pile of dark brown debris on its top surface. The background shows a factory setting with various pieces of equipment and a stainless steel sink.

CLEAN SWEEP, DRY CLEAN DONE FAST.

Dust, debris, and other dry contaminants accumulate quickly on surfaces in production areas, dry cleaning is crucial for maintaining a safe and efficient operation.

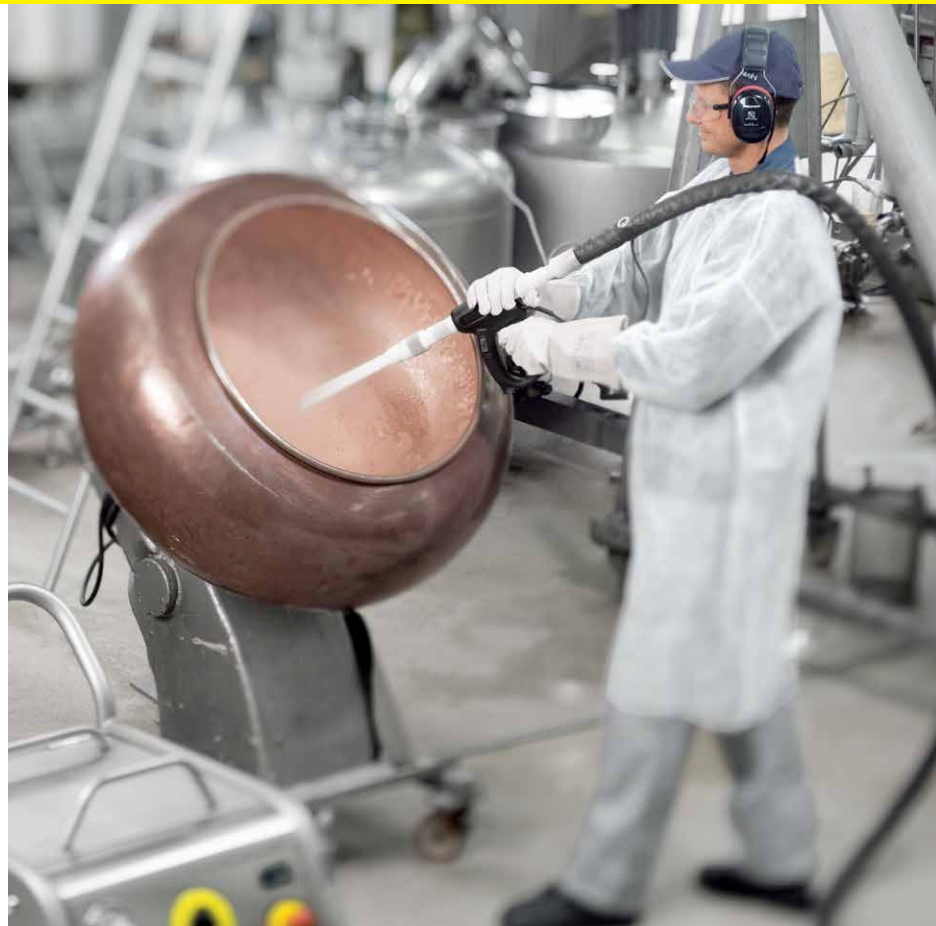

Dust buildup is a significant challenge in production facilities for a multitude of reasons, impacting everything from safety to efficiency for not only the business, but the

staff. Our sweeping and vacuuming solutions efficiently help you manage the facility and keep production flowing.

Our industrial vacuum cleaners are available in various sizes and configurations, including models designed for specific types of debris, such as oils, liquids, production waste, and dust. For hazardous materials, we offer vacuums with specialized filtration, including Z22, M, and optional H filters. These filters capture fine particles and ensure a safe working environment.

For larger areas, our industrial sweepers provide efficient and effective cleaning, quickly removing debris and dust from floors.

Our team can provide expert consultation and training to help you select the right dry cleaning equipment and accessories for your specific needs, ensuring optimal performance and efficiency.

The Power of Dry Ice Cleaning

For delicate surfaces, intricate machinery, or areas where traditional cleaning methods are impractical, Kärcher's dry ice cleaners offer a unique and highly effective solution. Dry ice cleaning uses solid carbon dioxide pellets propelled at high speed to remove contaminants without damaging the underlying surface.

This method is non-abrasive, leaves no secondary waste, and is environmentally friendly. Dry ice cleaning is ideal for removing grease, oil, paint, adhesive, and other contaminants from sensitive equipment, molds, and other surfaces where traditional cleaning methods might cause damage.

KM 170/600 R D Classic Sweeper

A robust and powerful ride-on sweeper efficiently cleans large indoor and outdoor areas in demanding industrial environments.

MAINTAINING CRITICAL COMPONENTS

Maintaining clean production equipment, parts, diaphragms, filters, and sieves is essential for uninterrupted operations. Heavy incrustations, dirt, and production residues can significantly impact performance and product quality. Karcher offers powerful cleaning solutions ranging from in line pressure washing to a post production wash bay.

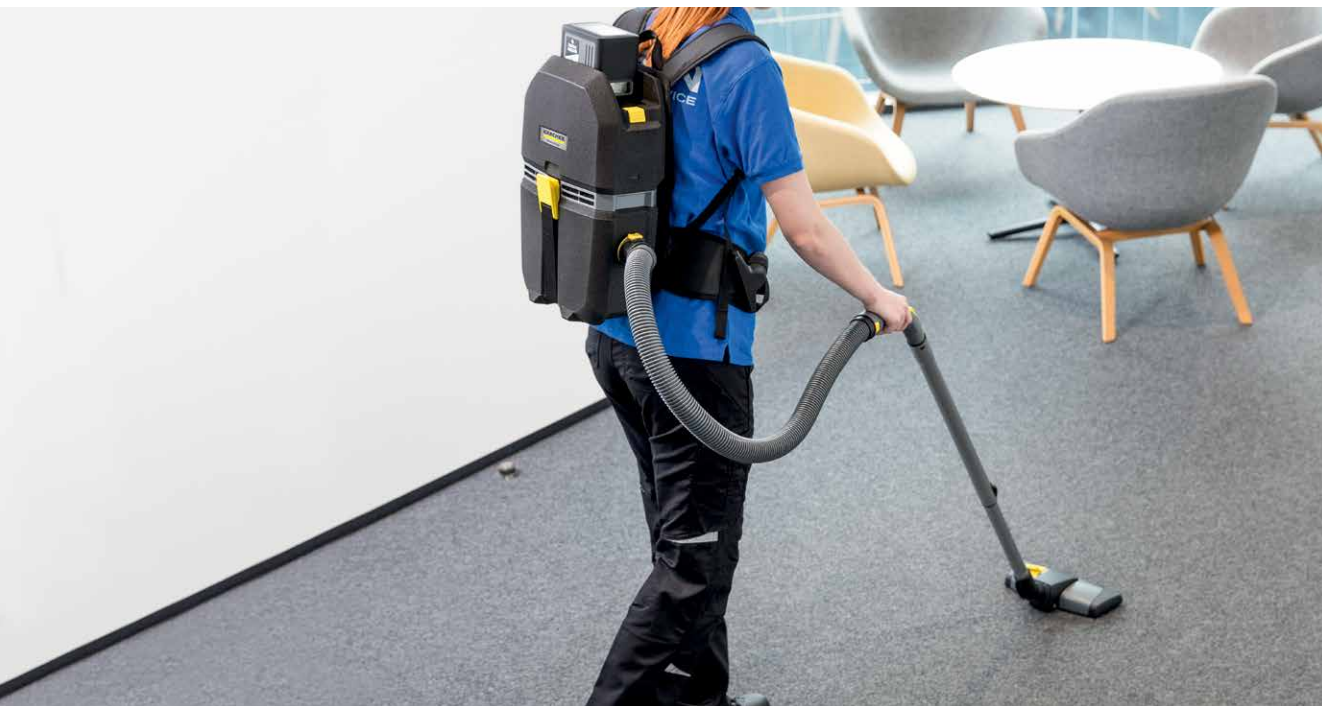

From ultra-high-pressure cleaning for the toughest jobs to specialized parts cleaners, our solutions address a variety of cleaning needs. Cold and hot water high-pressure cleaners provide versatile cleaning power, while dry ice blasters offer a unique solution

for delicate or hard-to-reach areas. A wide array of accessories, including high-pressure guns, turbo nozzles, and vortex blasting nozzles, allows you to customize your cleaning process for maximum effectiveness.

SPARK INNOVATION WITH PRISTINE WORKSPACES.

Clean offices and labs are vital to productivity and innovation in manufacturing. These are the spaces where ideas take shape, and a clean environment fosters confidence and focused work. Kärcher provides the right cleaning solutions - including consultation and application training - to help you achieve remarkable results.

Maintaining Non-Production Areas

Keeping floors clean is a constant battle, not only in specialized lab environments, but in other areas around the facility. Restrooms, offices, cafeterias and break rooms can be cleaned

efficiently and quickly with our smaller vacuums and scrubbers which can easily navigate tight spaces.

BD 35/15 C Bp Classic Scrubber

A compact and lightweight scrubber perfect for maneuvering in tight spaces.

A man with a beard and a black beanie is operating a grey industrial floor sweeper. He is wearing a green quilted jacket and blue pants. The sweeper has a yellow brush at the front and a logo on the side. He is positioned in front of a loading dock with two open bays. The left bay contains pallets of white boxes and bags of material. The right bay is empty. The background is a grey metal building with large numbers '4' and '5' above the bays.

OPTIMIZING SAFETY AND EFFICIENCY

Your loading dock is a critical hub of activity, but it's also a high-risk area for accidents. Keeping this space clean and dry is paramount for both safety and efficiency. From spills and debris to constant traffic, loading docks require specialized cleaning solutions to maintain a safe and productive environment.

Kärcher offers a comprehensive range of cleaning equipment designed specifically for the challenges of loading dock maintenance. Our industrial sweepers efficiently remove debris and dirt, preventing slip hazards and keeping the area clear for smooth operations. For spills and routine cleaning, our industrial scrubbers deliver powerful cleaning performance, minimizing downtime and keeping surfaces dry.

With Kärcher cleaning solutions, you can ensure a clean, safe, and efficient loading dock, minimizing risks and maximizing productivity. We also offer a range of accessories, such as specialized brushes and squeegees, to customize your cleaning approach and address specific needs. Our team can provide consultation and application training to ensure you get the most out of your Kärcher equipment.

Meeting Food Safety Regulations

Maintaining sanitary conditions in loading docks used for food product handling is crucial for complying with regulations like the FDA's Food Safety Modernization Act. Kärcher's cleaning equipment can play a vital role in your food safety program.

Our sweepers and scrubbers effectively remove contaminants and debris, helping you maintain the highest standards of cleanliness and comply with regulatory requirements.

KM 75/40 W Bp Sweeper

A compact and maneuverable sweeper is ideal for cleaning tight spaces in manufacturing facilities, including inside cargo trailers, .

A man in a light blue polo shirt and dark blue trousers is operating a grey Kärcher walk-behind brush sweeper. He is pushing the machine along a paved area next to a modern building with large windows. The machine has two large black wheels and a wide brush head. The text "MAINTAINING A CLEAN PERIMETER." is overlaid in large white letters.

MAINTAINING A CLEAN PERIMETER.

Keeping exterior areas clean is crucial for preventing dirt and debris from entering your production facility.

By effectively cleaning outside areas, you reduce the cleaning requirements inside, ultimately saving costs. Kärcher offers a comprehensive range of solutions for maintaining all

exterior areas, from storage and loading zones to pathways, roadways, parking lots, and green spaces.

Sweeping Solutions for Exterior Surfaces

For efficient sweeping of debris from walkways and building entrances, our sweepers offer high performance and maneuverability. For larger areas and tougher jobs, our ride-on sweepers provide high working and transport speeds along with large waste container capacity. Our industrial floor care products make it easy to keep parking lots, sidewalks, and entrances looking presentable.

Powerful Cleaning with Pressure Washers

Our cold and hot water pressure washers deliver powerful cleaning for blasting debris from sidewalks, parking lots, and building exteriors. A range of accessories, including flushing systems, watering systems, snowplows, and side brushes, allows you to customize your cleaning solutions for every need.

Jarvis Series Surface Cleaner

A complete solution for quick, streak free cleaning of entrances and sidewalks, this pressure washer surface cleaner combo is the perfect solution for quick, outdoor cleaning.

WHEN A CLEANING ROBOT MAKES ITS MARK

Reliable sensor technology, connectivity and transparency meet complete cleaning performance – this is the smart KIRA B 50 cleaning robot. Start a (clean) new chapter with the professional scrubber robot: easy to set up and operate, it offers complete autonomy and facilitates safe, thorough and economical cleaning of all surfaces.

See the KIRA B 50
in action.

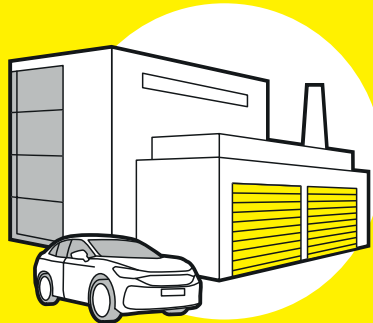

HOW WE WORK

The path to achieving our goals takes us through your production or logistics department. Once we have understood all your processes, we can deliver a solution that is tailored to your exact requirements. Step by step, systematically and efficiently.

01 REQUIREMENTS

Production and logistics need to do one thing: run smoothly. Tell us where this is not the case and improvements need to be made.

02 ON-SITE VISIT

We visit your site to get an idea of the situation and familiarize ourselves with your operating procedures. We use this as the basis for discussing initial solutions.

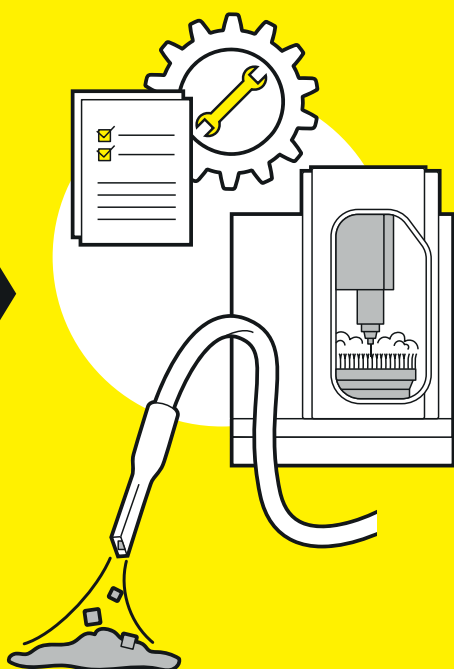

03 CONSULTATIVE SELLING

If necessary, we can offer more in-depth consultation and put together an appropriate package. This may include standard products, accessories and detergents, but also tailor-made solutions, financing offers or service agreements.

04

INSTRUCTION AND INSTALLATION

We do more than just ship our products. We provide support for installation, commissioning and instruction to ensure that everything runs smoothly. This also includes application advice for the best possible results.

05

SERVICE

You remain our customer, even after the conclusion of the contract. There are various service packages, we supply consumer goods (detergents and accessories) – whatever you need.
